UPDATES HISTORY

Date	Update	Version
01/21/2026	Initial release	1

1. INTRODUCTION

- This manual outlines accounting and finance processes at Intel HRC in alignment with the OHADA accounting framework, internal policies, and ISO 9001 standards.
- It ensures consistency, accountability, and compliance in all financial operations.
- This manual applies to all finance and accounting staff and supersedes any previous internal accounting procedures.
- This manual will be reviewed periodically to reflect regulatory updates, operational improvements, and control enhancements

2. PURPOSE

- To guide the consistent and compliant execution of accounting, reporting, internal control, tax compliance, and treasury management.
- To ensure all financial processes align with Intel HRC's internal policies, SYSCOHADA requirements, and quality principles of ISO 9001.
- To support accurate, timely, and auditable financial records that promote transparency, accountability, and risk-resilient financial operations.

3. PROCESS OWNERSHIP AND SUPERVISION

- The Chief Finance Officer (CFO) is responsible for all accounting and finance processes.
- Functional supervision is delegated to designated team leads as outlined in Section 6.
- Execution roles are clearly separated from review and approval duties to ensure proper internal control, accountability, and compliance with ISO 9001 and SYSCOHADA requirements.

4. ACCOUNTING FRAMEWORK

- Intel HRC applies the SYSCOHADA framework, as adopted under the OHADA Uniform Act on Accounting.
- All financial statements are prepared in accordance with applicable legal and regulatory requirements in OHADA member states.
- This framework governs recognition, classification, and presentation of all financial information.
- Financial statements must be prepared in accordance with SYSCOHADA principles, ensuring that they are regular, sincere, and provide a faithful depiction of the entity's financial position, performance, and operations

5. CHART OF ACCOUNTS

- Intel HRC maintains a standardized chart of accounts in full alignment with the official SYSCOHADA chart of accounts as mandated under the OHADA Uniform Act.
- Each account class (1–5 for balance sheet, 6–7 for income statement, 8 for allocations and internal operations) is applied in accordance with SYSCOHADA's prescribed structure.

- The chart of accounts used in the accounting system must reflect the most recent approved version and cannot be altered without formal approval and documentation by the CFO, with changes recorded in Annex A.

6. ROLES AND RESPONSIBILITIES MATRIX

- The matrix below outlines key finance roles and their specific responsibilities for journal entry preparation, review, and approval.
- Intel HRC enforces strict segregation of duties in line with ISO 9001 and SYSCOHADA internal control principles to ensure accountability and integrity of financial records.

Note: This matrix includes only Finance Department roles with responsibilities for accounting, reconciliation, and financial reporting. Roles related to payroll, payments, procurement, and billing are covered in their respective SOPs. The Finance team records only final, approved entries after centralized document archiving by the Office Manager, in line with Intel HRC's documentation policy.

Role	Responsibilities
Chief Finance Officer (CFO)	Final approval of all financial statements and key journal entries. Oversight of compliance with OHADA and ISO. May intervene in exceptional approvals or escalations.
Head of Financial Planning & Analysis (HFP&A)	Coordinates the monthly and annual close process. Reviews adjusting journals. Validates financial analysis and reporting packages.
Finance Officer	Prepares standard journal entries (e.g., expenses, accruals, provisions, tax). Maintains supporting documentation. Submits for review.
Tax Officer	Prepares tax declarations. Submits for review by the Head of Tax. Ensures linkage with GL and tax return filing.
AP Accountant	Prepares supplier-related entries. Reviewed by Finance Officer.
AR Accountant	Prepares client invoice and revenue entries. Reviewed by Finance Officer or Head of Revenue.
Revenue Accountant	Validates billing prepared by AR Accountant. Reconciles income accounts. Escalates discrepancies.
Treasury Accountant	Prepares bank entries. Reviewed by Head of Revenue & Treasury.
Head of Tax, Payroll & AP	Reviews AP and tax entries. Validates payroll journals. Oversees statutory remittances.
Head of Revenue & Treasury	Reviews AR, treasury, and collection processes. Oversees liquidity and intercompany settlements.

7. JOURNAL ENTRY AND RECORDING STANDARDS

- All transactions must be recorded promptly, chronologically, and without gaps or alterations, in the order of their occurrence, in accordance with Article 17 of the OHADA Uniform Act.

Where applicable, Intel HRC may enforce internal deadlines for recording transactions (e.g., within [X] days of occurrence) in line with internal policy.

8. RECONCILIATIONS AND REPORTING

8.1. RECONCILIATIONS AND PERIOD-END CLOSING

- All balance sheet and subsidiary accounts must be reconciled monthly by the Finance Officer responsible, AP/AR Accountant, or Treasury Accountant, and reviewed by the designated team lead (e.g., HFP&A for balance sheet items, Head of Tax for tax accounts).
- Reconciliations must be supported by valid documentation, follow a preapproved format by the HFP&A, and be completed no later than the 10th business day of the following month. The reconciliation must clearly identify opening and closing balances, reconciling items with explanations, and any outstanding actions. All reconciliations must be reviewed and signed off by the designated team lead.
- Subsidiary ledgers must be maintained for all accounts in Classes 40, 41, 46, 47, 451, and 16x, and reconciled monthly against GL balances.
- Intercompany accounts must be reconciled and confirmed with counterparties monthly prior to close
- Reconciling items must be explained, aged, and cleared promptly, with follow-up actions documented. Completion of reconciliations must be confirmed through a signed checklist before finalizing financials.
- The HFP&A team is responsible for maintaining and coordinating the monthly and year-end close calendar. This includes consolidating close reports, following up on outstanding reconciliations, and ensuring timely review and resolution of unusual balances and adjusting entries.
- All transactions must be posted, reviewed, and approved before the established close cut-off dates. Adjusting journal entries must be properly documented, justified, and authorized in line with Intel HRC's journal control procedures.
- Completion of each period-end close must be confirmed via a signed checklist by both the preparers and reviewers. No financial reports may be declared final until this checklist is completed and archived.
- Reconciliations of tax accounts must be consistent with statutory declarations and must comply fully with applicable national tax laws.

8.2. REPORTING REQUIREMENTS

- Intel HRC must prepare and retain the following core financial reports to support internal decision-making, external compliance, and audit readiness:
 - Monthly management accounts (P&L, balance sheet, and cash flow statement)

- Reconciliation summaries and close checklists
 - Quarterly financial statements (for Board and partner reporting)
 - Annual statutory financial statements in SYSCOHADA format
 - Tax returns and statutory declarations reconciled to GL balances
- Reports must be prepared by the HFP&A team and validated by the CFO. All reports must reconcile to the general ledger, be supported by documented schedules, and be version controlled.
 - Submission timelines are as follows:
 - Monthly reports: by the **10th business day** of the following month
 - Quarterly reports: within **20 calendar days** after quarter-end
 - Annual financial statements: **finalized, audited, and ready for Board approval** in advance of the **Annual General Meeting (AGM)**, which must be held no later than **June 30**, in accordance with OHADA provisions.
 - All reports must be archived electronically and made available for internal and external audit. The archiving process must comply with Intel HRC's documentation control policy.

9. COMPETENCY AND ACCESS REQUIREMENTS

- All accounting and finance staff must possess adequate qualifications, relevant professional experience, and demonstrated familiarity with the SYSCOHADA accounting framework.
- Staff must be trained on Intel HRC's financial SOPs, accounting software, internal controls, and documentation policies prior to assuming responsibilities. Training completion must be recorded and retained in accordance with Intel HRC's documentation control policy.
- Access to financial systems must be based strictly on job function and approved role-based profiles. Each user must have a unique login; the sharing of credentials is strictly prohibited. Access must be reviewed quarterly by the CFO or their delegate and immediately revoked upon role change or departure.
- Competency levels must be formally assessed **at least once per year** by the CFO or HFP&A to ensure ongoing capability, identify training needs, and ensure alignment with evolving regulatory and operational requirements.
- Staff responsible for tax compliance must demonstrate up-to-date knowledge of SYSCOHADA tax accounting rules and national tax legislation (including the General Tax Code), and must receive training on any changes issued through regulatory notices, tax rulings, or SYSCOHADA implementation guidance.

10. TAX COMPLIANCE

- Intel HRC must ensure timely and accurate filing of all tax declarations, including CNPS, PIT, VAT, WHT, business license (patente), and corporate income tax (IS).
- Tax entries must be recorded based on valid documentation and reconciled to the general ledger and submitted returns.

- The Head of Tax, Payroll & AP is responsible for preparing and reviewing all tax declarations and payment instructions. The CFO provides final validation and authorization for submission.
- A formal tax calendar must be maintained and monitored by the Tax team to track statutory deadlines, reduce late filing penalties, and ensure full compliance.
- All tax filings and supporting documentation must be archived in accordance with Intel HRC's documentation control and audit-readiness policy.

11. ACCOUNTING ENTRIES UNDER OHADA

11.1 REURRENT VENDOR TRANSACTIONS

11.1.1 VENDOR INVOICES – SERVICES

Dr: 61xx / 62xx / 63xx – Charges for services acquired
 Dr: 445x – Recoverable VAT on other goods and services
 Cr: 4011 – Suppliers – Invoices Received

Supporting Documents: Approved supplier invoice, service contract or work order, and proof of service delivery
 Prepared by: AP Accountant
 Reviewed and Approved by: Finance Officer

11.1.2 VENDOR INVOICES – GOODS

Dr: 60xx – Purchase of goods (net of VAT)
 Dr: 445x – Recoverable VAT on other goods and services
 Cr: 4011 – Suppliers – Invoices Received

Supporting Documents: Approved supplier invoice, delivery note or goods received voucher, and purchase order
 Prepared by: AP Accountant
 Reviewed and Approved by: Finance Officer

11.1.3 SUPPLIER PAYMENTS – STANDARD

Dr: 4011 – Suppliers – Invoices Received (gross amount incl. VAT)
 Cr: 5121 – Bank

Supporting Documents: Signed payment instruction, supplier invoice, and bank transfer proof
 Prepared by: Treasury Accountant
 Reviewed and Approved by: Finance Officer

11.1.4 SUPPLIER PAYMENTS – WITHHOLDING TAXES

Dr: 4011 – Suppliers – Invoices Received (gross amount incl. VAT)
 Cr: 5121 – Bank (net amount paid)
 Cr: 447x – Tax Authorities – Withholding Tax Payable

Supporting Documents: Signed payment instruction, supplier invoice, bank transfer proof, and withholding tax computation
 Prepared by: Treasury Accountant
 Reviewed and Approved by: Finance Officer

11.1.5 SUPPLIER ADVANCES

Dr: 4091 – Suppliers – Advances and Prepayments
 Cr: 5121 – Bank

Supporting Documents: Signed supplier advance request, purchase order, and transfer proof
 Prepared by: Treasury Accountant
 Reviewed and Approved by: Finance Officer

11.1.6 CLEARING OF SUPPLIER ADVANCES

Dr: 60xx / 61xx / 62xx / 63xx – Expense or asset account (net of VAT)
 Dr: 445x – Recoverable VAT on other goods and services
 Cr: 4091 – Suppliers – Advances and Prepayments

Supporting Documents: Final invoice, advance reconciliation, and delivery evidence
 Prepared by: AP Accountant
 Reviewed and Approved by: Finance Officer

11.1.7 – Supplier Debit Notes

Case A – Issued by Intel HRC (to the supplier):
 Intel HRC may issue a debit note to a supplier to request reimbursement, correction of overbilling, or for goods/services not delivered. This creates a claim in Intel's books.

Entry:

- Dr: 4091 – Debit Notes Receivable from Supplier
- Cr: 60xx / 61xx / 62xx / 63xx – Expense or asset being reversed
- Cr: 4451 – Recoverable VAT (if previously claimed on the reversed invoice)

Case B – Issued by the supplier (to Intel HRC):
 The supplier may issue a debit note to claim additional charges not previously billed.

Entry:

- Dr: 60xx / 61xx / 62xx / 63xx – Expense or asset
- Dr: 4451 – Recoverable VAT

- Cr: 4011 – Suppliers – Invoices Received

Supporting Documents: Supplier debit note, approval memo, and supporting documentation

Prepared _____ *by:* _____ AP _____ Accountant

Reviewed and Approved by: Finance Officer

11.1.8 – Supplier Credit Notes

Case A – Issued by Intel HRC (to the supplier):

Intel HRC may issue a credit note to a supplier to cancel a prior advance or settle an overpaid amount.

Entry:

- Dr: 4011 – Suppliers – Invoices Received
- Cr: 4091 – Supplier Advances (or Cr: 5121 – Bank if a refund is due)

Case B – Issued by the supplier (to Intel HRC):

When the supplier reduces the amount due or issues a commercial credit.

Entry:

- Dr: 4011 – Suppliers – Invoices Received
- Cr: 60xx / 61xx / 62xx – Expense or asset
- Cr: 4451 – Recoverable VAT (if applicable)

Supporting Documents: Supplier credit note, return evidence, and internal approval memo

Prepared _____ *by:* _____ AP _____ Accountant

Reviewed and Approved by: Finance Officer

11.2 RECURRENT CLIENT TRANSACTIONS

11.2.1 – CLIENT INVOICES – SERVICES

- Dr: 4111 – Clients – Invoices Issued (gross amount incl. VAT)
- Cr: 443x – VAT Collected
- Cr: 706x – Services Revenue

Supporting Documents: Approved billing request, signed service contract, and service delivery proof

Prepared _____ *by:* _____ AR _____ Accountant

Reviewed and Approved by: Finance Officer

11.2.2 – CLIENT INVOICES – GOODS

- Dr: 4111 – Clients – Invoices Issued (gross amount incl. VAT)
- Cr: 443x – VAT Collected
- Cr: 701x – Sales of Goods

Supporting Documents: Signed client order, goods delivery note, and approved invoice
Prepared by: AR **Accountant**
Reviewed and Approved by: Finance Officer

11.2.3 – CLIENT RECEIPTS – STANDARD

Entry:

- Dr: 5211 – Bank (gross amount received)
- Cr: 411x – Clients – Invoices Issued

Supporting Documents: Bank statement, client payment advice or remittance notice
Prepared by: AR **Accountant**
Reviewed by: Head of Revenue & Treasury

11.2.4 – CLIENT ADVANCES (PREPAYMENTS)

Context:

When a client pays in advance before an invoice is issued, the payment must be recorded as a liability until service/goods delivery occurs.

Entry:

- Dr: 5211 – Bank
- Cr: 419x – Clients – Advances and Down Payments Received

Supporting Documents: Client payment notice, bank statement, signed sales contract or order
Prepared by: AR **Accountant**
Reviewed by: Head of Revenue & Treasury

11.2.5 – TRANSFER OF CLIENT ADVANCES TO REVENUE

Context:

When a service or good is delivered, and a client advance previously recorded in 419x is now earned, it must be reclassified from liability to revenue.

Entry:

- Dr: 419x – Clients – Advances and Down Payments Received
- Cr: 706x – Services Revenue (for services)
or
- Cr: 701x – Sales of Goods (for goods)
- Cr: 443x – VAT Collected (on the earned portion)

Supporting Documents: Delivery note, service completion report, signed client acceptance or invoice
Prepared by: AR **Accountant**
Reviewed by: Head of Revenue & Treasury

11.2.6 – CLIENT CREDIT NOTES

Context:

When Intel HRC issues a credit note to a client to cancel or reduce a previously issued invoice (e.g., for billing errors, service non-performance, or returned goods), revenue and VAT must be reversed accordingly.

Entry:

- Dr: 706x / 701x – Revenue reversal (*based on nature of original sale*)
- Dr: 443x – VAT Collected (if VAT was originally declared)
- Cr: 411x – Clients – Invoices Issued

Supporting Documents: Approved client credit note, justification memo, client acknowledgment

Prepared by: AR Accountant

Reviewed by: Head of Revenue & Treasury

Supporting Documents: Approved credit note request, original invoice, and supporting justification or return evidence

Prepared by: AR Accountant

Reviewed and Approved by: Finance Officer

11.2.7 – CLIENT DEBIT NOTES

Case A – Issued by Intel HRC (to the client)

Entry:

- Dr: 411x – Clients – Invoices Issued
- Cr: 706x / 701x – Services or Goods Revenue
- Cr: 443x – VAT Collected

Supporting Documents: Approved debit note, justification memo, contractual clause (e.g., penalties), or service/goods delivery proof

Prepared by: AR Accountant

Reviewed by: Head of Revenue & Treasury

Approved by: Head of Revenue & Treasury (*if outside standard billing*)

Case B – Issued by the client (to Intel HRC)

Entry (if accepted):

- Dr: 709x – Revenue Adjustments / Allowances
- Dr: 443x – VAT Collected
- Cr: 411x – Clients – Invoices Issued

Supporting Documents: Client-issued debit note, contract clause, internal analysis and approval note

Prepared by: AR Accountant
Reviewed by: Head of Revenue & Treasury
Approved by: Head of Revenue & Treasury

11.2.8 – CLIENT CREDIT NOTES

Case A – Issued by Intel HRC (to the client)

Entry:

- Dr: 706x / 701x – Services or Goods Revenue
- Dr: 443x – VAT Collected
- Cr: 411x – Clients – Invoices Issued

Supporting Documents: Approved credit note, invoice reference, client communication, internal validation

Prepared by: AR Accountant
Reviewed by: Head of Revenue & Treasury
Approved by: Head of Revenue & Treasury (if above materiality threshold)

Case B – Issued by the client (to Intel HRC)

Entry (if accepted):

- Dr: 709x – Revenue Adjustments / Allowances
- Dr: 443x – VAT Collected
- Cr: 411x – Clients – Invoices Issued

Supporting Documents: Client-issued credit note, email trail or legal claim, commercial justification, internal validation memo

Prepared by: AR Accountant
Reviewed by: Head of Revenue & Treasury
Approved by: Head of Revenue & Treasury

11.2.9–SETTLEMENTS IN FOREIGN CURRENCY

11.2.9.1 – CUSTOMER PAYMENT (FOREIGN CURRENCY)

Context:

When a client settles an invoice in a currency other than FCFA (e.g., EUR, USD), Intel HRC must record the transaction at the commercial bank exchange rate applicable on the date of receipt. Any resulting foreign exchange gain or loss must also be recorded in accordance with OHADA rules.

Entry (at bank rate on receipt date):

- Dr: 5211 – Bank (local currency equivalent at applicable rate)
- Cr: 411x – Clients – Invoices Issued (foreign-currency equivalent at applicable rate)

If exchange difference arises between invoice and receipt date:

- Dr: 676x – Foreign Exchange Loss
- Cr: 776x – Foreign Exchange Gain

Supporting

Bank statement (foreign and local currency), original invoice, client payment advice, exchange rate confirmation from bank

Documents:

Prepared by: AR Accountant
Reviewed by: Head of Revenue & Treasury

11.2.9.2 – VENDOR PAYMENT (FOREIGN CURRENCY)

Context:

When Intel HRC settles a vendor invoice in a foreign currency (e.g., EUR, USD), the payment must be recorded at the commercial bank exchange rate applicable on the date of payment. Any foreign exchange gain or loss must be recognised in accordance with SYSCOHADA rules.

Entry (at bank rate on payment date):

- Dr: 401x – Suppliers – Invoices Received (foreign-currency equivalent at applicable rate)
- Cr: 5211 – Bank (local currency equivalent at applicable rate)

If exchange difference arises between invoice and payment date:

- Dr: 676x – Foreign Exchange Loss
- Cr: 776x – Foreign Exchange Gain

Supporting Documents: Supplier invoice, payment request form, proof of bank transfer, bank rate confirmation

Prepared by: AP Accountant
Reviewed by: Head of Tax, Payroll & AP

11.2.10 – CLIENT DISBURSEMENTS (ON BEHALF OF CLIENT)

Context:

Intel HRC may occasionally incur costs on behalf of clients that are reimbursable. These disbursements must be recorded distinctly to ensure proper tracking and recovery. Account 471x – **Suspense Accounts** is used under SYSCOHADA for temporary receivables of this nature.

Entry (at time of disbursement):

- Dr: 471x – Suspense Account – Client Disbursements
- Cr: 5211 – Bank

Entry (at time of invoicing the client – with VAT, if applicable):

- Dr: 411x – Clients – Invoices Issued
- Cr: 706x – Service Revenue (if recharge includes margin or is service-like)
- Cr: 443x – Output VAT (if applicable)

OR, if disbursement is reimbursed without VAT (pure pass-through):

- Dr: 411x – Clients – Invoices Issued
- Cr: 78x – Transfer of Expenses Recovered (non-taxable recharges)

Entry (at time of reimbursement by client):

- Dr: 5211 – Bank
- Cr: 411x – Clients – Invoices Issued

Supporting

Approved client authorization or contract clause, disbursement receipts, reimbursement invoice

Documents:

11.6 – TAX PAYMENTS

11.6.1 – VAT PAYMENT TO TAX AUTHORITIES (FOR SERVICE PROVIDERS – CASH BASIS)

Policy

Note:

In accordance with applicable national tax laws for service providers, VAT is declared and paid on a **cash basis**. Key implications:

- Output VAT (443x) is recorded on **invoicing**.
- Net VAT payable (444x) is recognized only on **receipt of cash**.
- Input VAT (445x) is deductible **only on payment** to the supplier. This ensures compliance with SYSCOHADA and national VAT frameworks.

Step 1 – On invoicing services to client (invoice date):

- Dr: 411x – Clients – Invoices Issued (gross incl. VAT)
- Cr: 706x – Services Revenue
- Cr: 443x – Output VAT

Step 2 – On client payment (VAT becomes due):

- Dr: 443x – Output VAT
- Cr: 444x – VAT Payable
- Dr: 5211 – Bank
- Cr: 411x – Clients – Invoices Issued

Step 3 – On supplier invoice for services (invoice date):

- Dr: 61xx / 62xx – Service Expenses
- Dr: 445x – Recoverable VAT
- Cr: 401x – Suppliers – Invoices Received

Step 4 – On supplier payment (VAT becomes deductible):

- Dr: 444x – VAT Payable
- Cr: 445x – Recoverable VAT
- Dr: 401x – Suppliers – Invoices Received
- Cr: 5211 – Bank

Step 5 – On VAT payment to tax authorities:

- Dr: 444x – VAT Payable
- Cr: 5211 – Bank

Supporting Documents: VAT return, client and supplier payment proof, tax authority receipt, internal reconciliation schedule

Prepared by: **Finance Officer**

Reviewed and Approved by: **Head of Financial Planning & Analysis**

11.6.2 – WITHHOLDING TAX ON SALARIES

Entry:

- Dr: 447x – Withholding Tax Payable – Salaries
- Cr: 5211 – Bank

Supporting Documents: Payroll withholding schedule, tax return or e-filing confirmation, treasury payment receipt

Prepared by: Finance Officer
Reviewed and Approved by: Head of Financial Planning & Analysis

11.6.3 – WITHHOLDING TAX ON VENDOR PAYMENTS

Entry:

- Dr: 447x – Withholding Tax Payable – Vendors
- Cr: 5211 – Bank

Supporting Documents: Vendor withholding schedule, supplier invoices, tax declaration, treasury receipt

Prepared by: Finance Officer

12.3 FOREIGN EXCHANGE REVALUATION AND PROVISIONS

12.3.1 FOREIGN EXCHANGE REVALUATION

To record unrealised foreign exchange differences on monetary balances:

For a loss on an asset (decrease in asset value):
Dr: 478xx – Unrealised FX Loss – Assets
Cr: Relevant asset sub-account (e.g., 41xx, 51xx)

For a gain on an asset (increase in asset value):
Dr: Relevant asset sub-account (e.g., 41xx, 51xx)
Cr: 479xx – Unrealised FX Gain – Liabilities

For a gain on a liability (decrease in liability value):
Dr: Relevant liability sub-account (e.g., 40xx, 16xx)
Cr: 479xx – Unrealised FX Gain – Liabilities

For a loss on a liability (increase in liability value):
Dr: 478xx – Unrealised FX Loss – Assets
Cr: Relevant liability sub-account (e.g., 40xx, 16xx)

Supporting Documents: Foreign currency balance report, official closing exchange rates, revaluation worksheet and provision computation
Prepared by: Finance **Officer**
Reviewed and Approved by: Head of Financial Planning & Analysis

12.3.2 PROVISIONS FOR RISKS AND CHARGES

To recognise provisions for unrealised foreign exchange losses and other risks:

Long-term provisions including unrealised FX losses:
Dr: 69xx – Provision Expense
Cr: 19xx – Long-Term Provisions for FX Losses
Cr: 29xx – Accumulated Depreciation for Fixed Assets

Short-term provisions including unrealised FX losses:
Dr: 659x or 679x – Provision Expense (659 for operating, 679 for financial)
Cr: Appropriate provision account:

- 39xx for inventory (short-term)

- **499x** for receivables and other Class 4 accounts (short-term)
- **59xx** for treasury accounts (short-term)

Note: Under OHADA, unrealised foreign exchange gains are not recorded in the income statement. Only losses are recognised and provisioned based on the nature (short-term or long-term) of the underlying asset or liability.

Supporting Documents: Foreign currency balance report, official closing exchange rates, revaluation worksheet and provision computation
 Prepared by: **Finance Officer**
 Reviewed and Approved by: **Head of Financial Planning & Analysis**

12.4 YEAR-END INVENTORY COUNT DIFFERENCES

To record inventory losses (write-downs or shrinkage):
Dr: 603xx – Inventory Adjustments
Cr: 31xx / 32xx – Inventory

To record provisions for stock obsolescence or damage:
Dr: 69xx – Provision Expense – Inventory
Cr: 39xx – Provision for Inventory Obsolescence

To record inventory gains (excess stock found):
Dr: 31xx / 32xx – Inventory
Cr: 603xx – Inventory Adjustments

Supporting Documents: Physical inventory count sheets, inventory reconciliation report, approval from inventory controller or department head
 Prepared by: **Inventory Accountant**
 Reviewed and Approved by: **Head of Financial Planning & Analysis**

12.5 CORRECTION OF ERRORS

12.5.1 CORRECTION OF SAME-PERIOD ERRORS

A. Preferred Method: Negative Entries on the Same Side

To correct a wrongly posted entry within the same fiscal period without reversing the entire journal, apply a negative line on the same side of the account.
 Example: Overstated expense of 150,000 instead of 100,000:

Original entry:
Dr: 60xx – Expense 150,000
Cr: 4011 – Supplier
 Correction entry:

Dr (negative): 60xx – Expense 50,000
 Cr (negative): 4011 – Supplier

OHADA Guidance: Negative entries should be used when correcting within the same account period, especially for client/supplier accounts. This ensures that credits reflect invoices and debits reflect payments, preserving account integrity.

B. Alternative Method: Full Reversal and Rebooking (Discouraged for 4011 / 4111)

Where negative lines are not permitted by the system, reverse the erroneous entry and post the corrected one.

Example:

Incorrect				original:
Dr:	6061	–	Supplies	500,000
Cr:	4011	–	Supplier	
Reversal:				
Dr:	4011	–	Supplier	
Cr:	6061	–	Supplies	
Corrected				entry:
Dr:	6021	–	Transport	Costs
Cr:	4011 – Supplier			

Note: This approach should be avoided for client/supplier accounts to preserve the directional meaning of movements. If used, ensure full traceability and link to the original entry.

12.5.3 PRIOR PERIOD ADJUSTMENTS

To correct a material error from a prior period (e.g., omitted invoice, misclassified entry):

Dr/Cr: Appropriate account(s) depending on the nature of the error

Dr/Cr: 129xx – Prior Period Result Adjustment

Note: Corrections that affect the current year only should be adjusted through the relevant income or balance sheet accounts without using 129xx.

Clarification – Immaterial Errors: Minor errors from prior periods that are not material may be corrected directly in current period income or balance sheet accounts, provided they are clearly documented and do not affect comparability or mislead users of the financial statements.

Supporting Documents: Explanation note or error log, copy of original and corrected documents, management approval or audit recommendation

Prepared by: Finance Officer

Reviewed and Approved by: Head of Financial Planning & Analysis

13. SUMMARY OF KEY INTERNAL CONTROLS

This Accounting SOP embeds internal controls directly within each accounting cycle and transaction type to ensure operational integrity, financial accuracy, and regulatory compliance. The internal control framework is structured to achieve the following:

- **Segregation of Duties:** Roles for journal preparation, review, and approval are distinctly assigned in line with the roles and responsibilities matrix, ensuring no single individual controls an entire transaction.
- **Documented Evidence:** Every transaction posting is supported by mandatory source documents (e.g., contracts, invoices, bank statements), enhancing traceability and audit readiness.
- **Standards Compliance:** All accounting treatments conform to the **OHADA Uniform Act, national tax legislation, and ISO 9001** requirements relating to documentation, controls, and continual improvement.
- **Approval Controls:** Approval workflows are formally mapped and executed by designated tiers of authority to prevent unauthorized or inappropriate entries.
- **Accuracy and Integrity of Records:** Standardized journal formats, account classifications, and supporting schedules reduce posting risks and facilitate timely reconciliations and reliable financial reporting.

These embedded controls are systematically integrated throughout the SOP rather than treated as a separate checklist, ensuring that risk mitigation and accountability are part of daily financial operations.

14. ARCHIVING AND RECORD RETENTION

14.1 Central Archiving
The **Office Manager** is responsible for maintaining the **official central archive** of all final accounting records, in both physical and digital formats. All documents must be:

- Marked “**Final – Approved**” and validated by the process owner
- Clearly labelled with the relevant accounting period or reference
- Indexed for version control and traceability

Superseded records must be retained in line with the Document Control Policy for audit and historical reference.

14.2 Departmental Records
Generating departments (e.g., Finance) must retain **functional copies** of records they prepare or process, ensuring consistency with the archived final versions.

14.3 Access and Retrieval
Functional owners are responsible for retrieving records and responding to audit or management requests. All records must be **retrievable within two (2) business days** of a formal request.

14.4 Retention Period
Accounting records must be retained for **at least ten (10) years**, or longer if required by law, client contract, or internal policy.

14.5

Disposal

Expired records may only be disposed of with **Finance Officer approval**, and disposal must be documented and securely executed.

15. EXCEPTION HANDLING AND ESCALATION

This section sets out the process for identifying and resolving exceptions in accounting activities.

15.1 Identification and Logging

- Any deviation from standard procedures or unexpected balances must be logged by the responsible accountant in the Exception Register.
- Each exception must be linked to the relevant journal, reconciliation, or document.

15.2 Resolution and Internal Escalation

- Minor issues (e.g., delayed sign-offs, coding errors) must be resolved within two (2) business days by the preparer or reviewer.
- If unresolved, the matter must be escalated to the Head of Financial Planning & Analysis.

15.3 Escalation to CFO and Executive

- Material or repeated exceptions, including potential fraud or control failures, must be escalated to the CFO within one (1) business day.
- Where financial reporting or compliance may be at risk, the CFO must inform Executive Management.

15.4 Exception Register Oversight

- The Finance Officer maintains the Exception Register, updated monthly.
- All exceptions are reviewed during month-end and year-end close.
- High-risk or unresolved cases are flagged in internal control and audit reviews.

16. ANNEXES

The following annexes form an integral part of this Accounting SOP and provide the tools, templates, and checklists necessary for consistent application, documentation, and control across Intel HRC's accounting processes.

Annex	Title	Description
Annex A	Chart of Accounts	Reference to chart of accounts in current use for journal classification and account selection.
Annex B	Journal Entry Template	Standard template for preparing, reviewing, and approving journal entries.
Annex C	Reporting Checklist and Calendar	Key monthly and annual reporting obligations and supporting documentation requirements.
Annex D	Month-End and Year-End Closing Checklist	Checklist of required close tasks, journals, reconciliations, and reviews.
Annex E	Change Log	Record of version changes and updates to the Accounting SOP.

Each annex is to be reviewed periodically for relevance and updated as necessary under the authority of the Finance Office, in collaboration with the Head of Financial Planning & Analysis and the Office Manager.

BUDGETING & FORECASTING SOP

	PROCEDURE		Code: PR02_PR_004
			Diffusion: Intel HRC
			Date: January 21, 2026
BUDGETING & FORECASTING SOP			
Version: 01	Prepared by	Reviewed by	Approved by
Initial Release	Signé par :  F9CE799ADB88473...	Signed by:  DD76AC4B2D80469...	DocuSigned by:  7890B78974D545C...
	2/9/2026	2/9/2026	2/9/2026
	Christelle TAMEN	Enow Mengotkpa	Derick Fonderson
	Head of Paroll Tax & AP	CFO	CEO

1. PURPOSE

This Standard Operating Procedure (SOP) defines the process, responsibilities, and control mechanisms for preparing, reviewing, approving, and monitoring budgets and forecasts at Intel HRC. The objective is to ensure alignment with strategic goals, effective cost control, and prudent resource planning within the HR outsourcing context.

2. SCOPE

This SOP applies to all Intel HRC departments and cost centers involved in budgeting and forecasting. It covers the preparation of annual operating and capital budgets, mid-year forecasts, cash flow projections, and monthly variance analysis.

3. POLICY STATEMENT

Intel HRC shall maintain a structured, transparent, and timely budgeting process that promotes accountability, supports informed decision-making, and ensures financial sustainability. All budgets and forecasts must be aligned with service delivery commitments, resource availability, and the company's strategic objectives. Budgetary decisions must comply with the Delegation of Authority (DoA) and be supported by verifiable data.

4. APPLICABLE STANDARDS AND REFERENCES

- ISO 9001:2015 – Clause 6 (Planning) and Clause 9 (Performance Evaluation)
 - OHADA Uniform Act on Accounting
 - Intel HRC Delegation of Authority Matrix (Annex G)
 - Related SOPs: Payroll, Payments, Billing, Financial Reporting
-

5. DEFINITIONS

- **Operating Budget** – Projected costs and revenues related to core business operations.
- **Capital Budget** – Planned investments in long-term assets or infrastructure.
- **Forecast** – An updated projection of income, costs, and cash flows based on actual performance and expected changes.
- **Variance** – The difference between budgeted and actual results.

6. ROLES AND RESPONSIBILITIES

Role	Responsibilities
Department Heads	Prepare departmental budgets; provide explanations for variances
Head of FP&A	Issue templates and guidance; consolidate submissions; lead variance analysis
CFO	Review consolidated budgets and forecasts; assess alignment with strategy
CEO	Provide final approval of annual budget and mid-year forecasts
Treasury Accountant	Monitor liquidity and validate cash flow projections
Senior Accountants	Assist with data collection and reasonableness checks Archive all final budget files and approvals in line with documentation policy
Head of Revenue & Treasury	Assist with revenue projections per contract validity

7. ANNUAL BUDGETING PROCESS

7.1 Budget Guidelines and Calendar

- The Head of FP&A shall issue annual budget templates and guidelines (Annex A) by October 15 of the preceding year.
- The guidelines shall include:
 - Inflation and cost escalation assumptions
 - Exchange rate assumptions
 - Revenue growth targets and cost control expectations
 - Strategic priorities and spending focus
 - Adjustments to cost classifications or budget structures
- The budgeting calendar (Annex F) shall be shared with all Department Heads.

7.2 Departmental Submissions

- Each Department Head shall complete the Annual Budget Template (Annex A) and submit it with the Budget Submission Checklist (Annex B) by November 15.

7.3 Budget Consolidation

- The Head of FP&A shall consolidate all departmental inputs and integrate payroll projections, client billing expectations, and known commitments.
- The Head of FP&A shall prepare revenue forecasts based on active client contracts, billing assumptions, renewal expectations, and signed service agreements.
- Senior Accountants shall assist in compiling underlying data and validating alignment with historical billing records and pipeline intelligence.

- Forecasted revenue shall be cross-checked for consistency with the assumptions underpinning the Billing SOP.
- Senior Accountants shall assist in compiling supporting schedules, validating data integrity, and checking alignment with historical trends.
- The Treasury Accountant shall support the validation of budgeted figures against projected cash flow availability.

7.4 Internal Review and Approval

- The CFO shall review and discuss the draft consolidated budget with the CEO.
- Final budget approval shall be documented using the Budget Approval Form (Annex C) by December 31.

7.5 Upload and Dissemination

- The Head of FP&A shall upload the approved budget into the financial system and circulate final departmental allocations by January 5 of the budget year.
- The Senior Accountants shall ensure archival of all final budget files, signed approvals, and supporting guidelines in accordance with the documentation retention policy.

8. BUDGET APPROVAL WORKFLOW

Step	Responsible Party	Timeline
Issue of guidelines and templates	Head of FP&A	October 15
Submission of departmental budgets	Department Heads	November 15
Consolidation and internal review	Head of FP&A, CFO, COO, CEO, Head of Departments	December 1–15
Final approval	CEO	December 31
Communication of approved budget	Head of FP&A	January 5

9. ROLLING FORECASTS AND REFORECASTS

- Forecasts shall be updated **at least twice annually** or when significant changes arise (e.g., new client contracts, staff changes).
- Variance-triggered reforecasts must be initiated if actuals deviate by more than 25% from budget on any major cost or revenue line.

10. MONITORING AND VARIANCE ANALYSIS

- FP&A shall perform **monthly budget vs. actual analysis** using the Variance Analysis Template (Annex E).
- Department Heads must provide variance justifications by the 7th business day of each month.
- Corrective actions shall be agreed in monthly financial review meetings.

11. DOCUMENTATION AND RECORDKEEPING

- Budget files, signed checklists, approval forms, and forecasts shall be securely stored electronically by FP&A for a minimum of **10 years**.
- The Senior Accountants are responsible for the centralized archiving of all final documents.
- Version control must be applied to all submitted and approved files.

12. LINKAGES WITH OTHER SOPs AND POLICIES

- **Payroll SOP:** Budgeting integrates headcount and payroll cost projections.
- **Billing SOP:** Revenue forecasts are aligned with expected billings.
- **Payments SOP:** All payments must reference approved budget lines.
- **Delegation of Authority:** Budget levels inform financial approval limits.

13. ANNEXES

Annex	Title	Description
A	Annual Budget Template	Standard input format for all departments
B	Budget Submission Checklist	Checklist to verify complete and accurate budget submissions
C	Budget Approval Form	Signed form confirming CFO and CEO approval
D	Rolling Forecast Template	Format for updating projections mid-year or upon material changes
E	Budget Variance Analysis Template	Monthly template for tracking and explaining deviations
F	Budgeting Calendar and Milestones	Visual schedule for the annual budgeting cycle

BILLING SOP

	PROCEDURE		Code: PS02_PR_001
			Diffusion: Intel HRC
			Date: January 21, 2026
BILLING SOP			
Version: 02	Prepared by	Reviewed by	Approved by
All responsibilities were reviewed	Signé par :  D8035F8EAF04B4... 2/9/2026 DIANE NGUETGNA Head of Revenue & Treasury	Signed by:  DD76AC4B2D80469... 2/9/2026 Enow Mengotkpa CFO	DocuSigned by:  7890B78974D545C... 2/9/2026 Derick Fonderson CEO

1. Purpose

To establish a standardized, transparent, and auditable billing process that supports accuracy, timeliness, regulatory compliance, and revenue assurance for services rendered by Intel HRC. This procedure incorporates internal control principles and contributes to the integrity and consistency of Intel HRC's billing practices.

2. Scope

This procedure applies to all billing operations undertaken by Intel HRC across its client engagements in Cameroon and the Diaspora. It covers billing for:

- Employer of Record (EOR) services
- Accounting, Tax, and Payroll Services
- Recruitment services
- Expense reimbursements
- Disbursement services
- Fixed fee or milestone-based services under retainer or project contracts

3. Reference Documents

- Executed client contracts and amendments
- Monthly payroll registers and onboarding validation records
- Disbursement approval forms
- Internal exchange rate bulletin
- Tax and VAT schedules (applicable by jurisdiction)
- Timesheets, work logs, or service confirmations (as applicable)
- Prefinancing status memo or reimbursement request summary

4. Roles and Responsibilities

Role	Responsibilities
Head of Revenue & Treasury	Owner of the billing process; ensures completeness, accuracy, and compliance - Reviews all invoices for alignment with signed billing triggers, documentation, and internal controls - Approves invoices up to and including FCFA 100 million
AR/Revenue Accountants	Draft, compile, and issue invoices using validated data and approved templates
Client Service Excellence (CSE) Managers & Head of CSE	Confirm headcount, onboarding completion, and service delivery status. Validate service delivery and sign off on billing triggers prior to invoice generation Provide contract-specific triggers, billing updates, and ensure correct service scope alignment.

	Identify, sign off, and transmit valid billing triggers to the Revenue Accountant
Treasury Accountants	Validate funds received and confirm exchange rates for non-resident clients
CEO	-Approves invoices exceeding FCFA 100 million -Approves first invoice of new clients. - Resolves high-value, exceptional, or sensitive billing issues escalated from the Head of Revenue & Treasury or COO

5. Billing Procedure

- A summary flow of the end-to-end billing process is presented in Annex F for visual reference and process traceability.

5.1 Triggers for Billing

- Billing is initiated when a valid billing trigger is formally identified, signed off, and transmitted to the Revenue Accountant for invoice generation.
- The billing process shall only commence upon proper documentation and validation of the following trigger events, aligned with the applicable service type:

Billing Trigger	Responsible Parties	Supporting Documentation / Action
Completion of monthly payroll processing	Head of CSE + CSE Manager	Payroll summary & signed trigger form
Validated onboarding or service milestone (EOR/project)	Head of CSE + CSE Manager	Onboarding register, milestone tracker, signed trigger form
Approved recruitment milestone or placement report	Head of People & Culture	Signed placement summary or recruitment tracker
Approved expense claim or disbursement recovery authorization	Head of CSE + CSE Manager	Signed expense or disbursement summary
Completion of monthly escrow disbursement report (IOS)	Head of Revenue & Treasury + CSE Manager	Validated disbursement report, signed trigger form
Finalization of FX rate bulletin (for Diaspora billing) (IOS)	Treasury + Account Manager	Treasury FX bulletin and billing summary
Scheduled milestone under retainer/project-based contracts (IOS)	Account Manager	Signed contract milestone tracker

- CSE Manager is responsible for:
 - Confirming service delivery or contract milestone completion
 - Completing and signing the billing trigger form or equivalent. We have replaced proposed billing trigger with format already being used internally.
 - Coordinating with the Head of CSE for validation (where applicable)
 - Transmitting the validated trigger to the Revenue Accountant
- The Head of CSE is responsible for:
 - Verifying operational or onboarding completion
 - Signing off on the accuracy and completeness of the trigger event
 - Ensuring timely validation in support of accurate billing
- No invoice shall be initiated without a duly signed billing trigger or equivalent documentation.

5.2 Invoice Generation

- The Revenue Accountant shall generate invoices only upon receipt of a duly signed billing trigger confirming service completion. The invoice shall be prepared using validated payroll or service delivery data retrieved from SAGE or other approved source systems, consistent with the trigger scope and documentation provided.
- Invoices must be prepared using the designated templates corresponding to the applicable service line. The following annexes apply:
 - ✓ Annex B1 – EOR Services Invoice Template
 - ✓ Annex B1.1 – EOR Services Detailed Payroll Costing (where a breakdown is required)
 - ✓ Annex B2 – Payroll, Bookkeeping & Tax Filing Invoice Template
 - ✓ Annex B3 – Disbursements Debit Note Template (used for escrow-based disbursements)
 - ✓ Annex B4 – Expenses Refund Invoice Template (for reimbursable expenses, applying 5% or 10% markup)
 - ✓ Annex D – Diaspora FX Rate Tracker (for applicable foreign currency invoices)
- All invoice elements are standardized per the approved templates (Annexes B1 to B4), which must be completed in full. Compliance with content requirements is ensured using the Billing Checklist (Annex A)

5.3 Validation and Approval Workflow

- The draft invoice is reviewed by the relevant CSE Manager and Head of CSE solely to ensure that it accurately reflects the signed billing trigger. All service validations, onboarding checks, and supporting documentation reviews must be completed before the billing trigger is signed.

- The reviewed invoice is submitted to the Head of Revenue & Treasury for control comprising verification of:
 - Presence of a duly signed billing trigger as the basis for invoicing
 - Consistency with the Billing Checklist (Annex A). Head of Revenue will introduce a revised billing checklist per client per service.
 - Accuracy of tax and FX application (especially for Diaspora clients)
 - Correct calculation of disbursement totals and markup logic
 - Compliance with invoice approval thresholds in line with the Delegation of Authority Matrix
- Where the invoice does not align with the signed billing trigger or fails any control checks, it shall be returned to the Revenue Accountant for correction.
- The Head of Revenue & Treasury may also flag the issue in the Billing Exception Log (Annex C) if the discrepancy indicates a systemic or recurring error.
- Any material deviation, unapproved billing, or unresolved anomalies must be escalated to the CEO in accordance with the Exception Handling and Escalation Procedure (Section 7).
- Only invoices that have passed all checks and reflect the approved billing trigger shall be signed and dispatched to clients.
- Once validated, invoices shall be escalated for approval based on the following thresholds:
 - ≤ FCFA 100 million: Head of Revenue & Treasury
 - > FCFA 100 million: CEO....
- All validations and approvals must be documented within the billing packet or noted in the Billing Exception Log (Annex C) where deviations occur.

5.4 Dispatch to Client

- Once validated and signed in accordance with the Delegation of Authority Matrix, the invoice shall be dispatched to the client by the **CSE Manager** via their preferred delivery method (e.g., email or hard copy), whether in Cameroon or the Diaspora.
- The **CSE Manager** shall verify successful delivery (e.g., no bounce or rejection) and follow up directly with the client to confirm formal acknowledgment—either by email confirmation or return of a signed copy. All dispatch and acknowledgment details shall be recorded in the billing tracker or retained in the billing packet.
- Where acknowledgment is not received within 3 business days, CSE Manager shall escalate the matter to the Head of CSE for resolution.
- The **CSE Manager** is responsible for tracking client payment status following acknowledgment. This includes initiating reminders, addressing client payment queries, and escalating payment delays to the Head of Revenue & Treasury or CEO, in line with internal thresholds and collection protocols.
- All actions related to dispatch, acknowledgment, and payment follow-up must be tracked in accordance with the Billing Checklist (Annex A).

6. Internal Controls and Risk Mitigation

Risk Category	Mitigation Strategy
Incorrect headcount or payroll figures	Dual control by CSE Manager and Head of Revenue & Treasury
Incorrect markup on expense reimbursements	Prefinancing status confirmed using Billing Checklist (Annex A)
Missed billing cycle	Monthly checklist and billing tracker reviewed by Head of Revenue & Treasury (Annex A)
Unbilled onboarding events	Cross-check with onboarding tracker and signed service validations
Unbilled disbursement volumes (escrow) IOS	Monthly disbursement report signed off by Revenue Head before billing
Unbilled recruitment placements	Billing validated against signed placement forms or milestones
FX misapplication IOS	Treasury-confirmed exchange rate bulletin required before invoicing Diaspora clients (Annex D)
Incorrect/duplicate invoice numbering	Head of Revenue & Treasury checks against invoice number tracker

7. Exception Handling and Escalation

- All billing discrepancies, anomalies, or documentation gaps — including unsupported amounts, incorrect rates, or missing validations — must be escalated to the Head of Revenue & Treasury within one business day of identification.
- Each exception must be logged in the **Billing Exception Log (Annex C)** to maintain a traceable audit trail and support internal reviews. The log must indicate whether the exception was escalated to the **Head of Revenue & Treasury** or **CEO**, based on the approval thresholds in section 5.3 above
- The Head of Revenue & Treasury shall review the Exception Log monthly and ensure that all logged issues are either resolved within 24 hours or escalated to the appropriate authority based on the approval thresholds.
- Client invoice disputes or delayed acknowledgments are initially handled by the CSE Manager and the Head of Revenue & Treasury. Where issues are sensitive, high-value, or unresolved after standard follow-up, they may be escalated to the CEO for final resolution.
- Patterns or recurring exceptions must be reported quarterly to management for process improvement

INTEL HRC PAYMENTS STANDARD OPERATING PROCEDURE (SOP)

INTEL HRC PAYMENTS STANDARD OPERATING PROCEDURE (SOP)

Version: 1.0

Effective Date:

Prepared by:

Reviewed by:

1. PURPOSE AND SCOPE

This SOP standardizes the process of initiating, approving, and executing payments at Intel HRC. It applies to vendor invoices, staff reimbursements, statutory disbursements, and one-off payments, ensuring disbursements are timely, documented, controlled, and compliant with Intel HRC's policies and ISO 9001 standards.

2. CROSS-SOP INTEGRATION

- This SOP operates in conjunction with the following procedures:
 - **Procurement SOP:** Payments for vendor invoices are only processed upon validation against approved Purchase Orders and contracts per procurement guidelines.
 - **Payroll SOP:** Statutory and salary-related payments are initiated only after payroll validation and approval.
 - **Billing SOP:** Client-billable disbursements may be linked to validated billing triggers and reconciliations.
 - **One-off disbursements:** must comply with the DoA matrix and documentary requirements, even if not triggered by the Procurement or Payroll SOPs
- Where discrepancies arise between SOPs, the Delegation of Authority (DoA) thresholds in Section 5.3 shall prevail for payment authorization.

3. ROLES AND RESPONSIBILITIES

Role	Key Responsibilities
Accounts Payable (AP) Accountant	▪ Initiates payment requests based on validated documentation from Procurement, HR, or Payroll. ▪ Verifies accuracy, completeness, and authorization of supporting documents. ▪ Flags non-compliant submissions and coordinates resolution with originating departments. ▪ Maintains the AP ledger and aligns disbursements with supplier terms and statutory deadlines. ▪ Prepare validated requests for Treasury processing per the AP calendar.
Treasury Accountant	▪ Initiates weekly payment runs by AP calendar and due dates. ▪ Prepares disbursement packages and confirms approvals before payment. ▪ Updates the Exception Log for delays, rejections, and irregularities.

	▪ Executes payments only after final approval under DoA. ▪ Reconciles disbursements with approved schedules and reports gaps.
Head of Revenue & Treasury	▪ Reviews & Confirms cash position ▪ Confirms proper authorization as per internal controls ▪ Evaluate efficiency of payment platforms (system efficiency) ▪ Maintain accurate records for audit & reporting purposes ▪ Ensures monthly Exception Log issues are resolved within 24 hours.
Chief Operating Officer (COO)	▪ Signs off on one-off or non-routine payment memos within delegated authority. May also act as an alternate approver in line with internal delegation protocol.
Head of Financial Planning & Analysis (HFP&A)	▪ Approves payments within assigned thresholds. ▪ Jointly approves high-value payments with the CEO. ▪ Ensures financial compliance and internal control over payments.
Chief Executive Officer (CEO)	▪ Solely approves payments and emergencies. ▪ May delegate authority in writing per Intel HRC protocols.
Designated Alternate Approver	▪ Acts as alternate signatory per written delegation by CEO ▪ May be activated in cases of unavailability or absence of the CEO, in accordance with formal written delegation.

4. PAYMENT CATEGORIES

1. **Vendor Payments:** Triggered by validated PO and invoice, including delivery note. Must align with contract terms and payment milestones.
2. **Staff Reimbursements:** Supported by original receipts, IWO approval (Internal Work Order), and applicable travel/work policy reference. Reviewed weekly.
3. **Statutory Disbursements:** CNPS, PIT, and related obligations generated from finalized payroll. Tracked in payroll reconciliation and disbursement summary.
4. **One-Off Payments:** Non-routine disbursements (e.g., fines, emergencies) justified by memo or directive and approved by the designated authority per DoA (Delegation of Authority) thresholds.

5. PAYMENT PROCESS FLOW

5.1 Triggering Events

- Vendor submits approved invoice and delivery confirmation
- Staff submit IWO and receipts via Head of People and Culture (in accordance with Payroll SOP)
- Final payroll summary and Payment order transmitted to Finance by the CSE Managers.
- COO, HFP&A, or CEO signs off one-off payment memo as applicable

5.2 Verification and Documentation

- AP Accountant checks accuracy, completeness, and authorization of documentation

- For vendor payments: cross-checked with PO and delivery evidence
- For staff: Receipts reviewed against approved IWO
- For payroll/statutory: tied to the net pay reconciliation summary and Payroll SOP output
- Payment Checklist (Annex A) completed before processing

5.3 Preparation and Approval

- Treasury Accountant prepares payment batch and Disbursement Schedule (Annex B)
- Head of Revenue & Treasury reviews for cashflow and payment authorization.
- CFO reviews and signs off where threshold or complexity requires
- COO or CEO approval is obtained where required per DoA thresholds (Annex D)
- All payment approvals must strictly follow the approval flow and thresholds outlined below.
- The final authority to disburse funds lies with the Head of Financial Planning & Analysis (HFP&A) and the Chief Executive Officer (CEO), acting jointly for high-value and non-routine payments.
- Where either or both are unavailable, disbursement authority may be delegated in writing to alternates in accordance with Intel HRC's internal delegation protocol.
- Treasury may only execute disbursements after all required approvals are obtained and documented on the Disbursement Schedule (Annex B) and Payment Checklist (Annex A).

Payment Type	Amount Range (FCFA)	Minimum Approval Flow	Final Authority to Disburse
Procurement-Linked	500,000	HFP&A → Head of Revenue & Treasury → Treasury Accountant	Sole: HFP&A
Staff Reimbursements	≤ 500,000	Head of People & Culture → HFP&A → Treasury Accountant	Sole: HFP&A
Staff Reimbursements	> 1,000,000		Sole: CEO
Statutory Payments	Any amount	Payroll Sign-Off → Head of Payroll, Tax & AP → Treasury Accountant	Sole: CEO
One-Off / Non-Routine	> 1,000,000	HFP&A → CEO	Sole: CEO
Emergency Payments	Any value	Justification Memo → HFP&A → CEO	

- Emergency payments refer to urgent disbursements outside the normal payment cycle, requiring immediate action to avoid disruption or penalty.

5.4 Execution

- Treasury Accountant initiates transfers via secure banking platform with dual authorization
- Confirmations (SMS/email/bank statement/ POP/ Debit advice) are captured as proof of payment
- Completed batch is time-stamped and filed with disbursement folder

5.5 Notification

- Once payment is executed and confirmed, the Head of Quality Control & central services shall notify the **vendor** while the CSE notifies Clients via email. The notification shall include the amount paid, payment reference, and disbursement date.
- For internal disbursements (e.g., staff reimbursements or one-off internal requests), the initiating department may be notified if operationally necessary.
- No notification is required for recurring or statutory payments unless exceptions arise.

5.6 Archiving and Retention of Payment Documentation

- Each department involved in payment processing retains full responsibility for the **accuracy, completeness, and timely submission** of payment-related documentation.
- Following payment execution, the Treasury Accountant shall compile the final payment file and transmit it to the Head of Quality Control & central services within **48 hours** for central archiving.
- The Treasury Accountant is the custodian of the **Central Payment Archive**, which holds validated and final versions of all disbursement records.
- Departments may retain working versions for operational use, but the master archive version must be submitted and stored centrally.
- The archived payment file must include, at a minimum:
 - Approved invoices, IWO, or internal memo (as applicable)
 - Supporting documentation (e.g., PO, delivery note, travel receipts, payroll reconciliation)
 - Signed Payment Checklist (Annex A)
 - Approved Disbursement Schedule (Annex B)
 - Proof of payment (bank confirmation, SWIFT/email/SMS)
 - Exception Log entries where applicable (Annex C1)
- Final records are archived digitally and, where applicable, physically in the finance registry. Access is restricted to authorized personnel.

- Each archived payment file shall be recorded in the **Central Payment Archive Register (Annex C)** maintained by the Treasury Accountant.
- All payment documentation must be retained for a **minimum of ten (10) years**, in line with Intel HRC's internal control framework and legal obligations.

6. PAYMENT SCHEDULE AND DEADLINES

- Intel HRC operates a **weekly payment cycle**, with disbursements executed each **Friday**. Cut-off for inclusion in the weekly payment run is **Wednesday at 12:00 PM**. The Treasury Accountant is responsible for compiling validated payment batches and ensuring timely execution.
- The Head of Revenue & Treasury reviews and finalizes the disbursement schedule prior to execution.

Payment Type	Cut-off Date	Execution Date	Notes
Vendor Invoices	Wednesday, 12:00 PM	Friday (same week)	Requires approved PO, invoice, and delivery confirmation.
Staff Reimbursements	Wednesday, 12:00 PM	Friday (same week)	Urgents require justification and HFP&A approval.
Salaries & Statutory Payments	Per payroll schedule	Per statutory due dates	Refer to Payroll SOP for CNPS, PIT, etc.
One-Off Payments	As approved	Within 3 business days of final approval	Must follow DoA thresholds and include justification memo.

- Treasury may consolidate or advance payment batches based on readiness and availability of approvals. Exceptions must be recorded in the Exception Log (Annex C1).

7. INTERNAL CONTROLS AND EXCEPTIONS

Intel HRC applies the following controls to ensure payment integrity, segregation of duties, and ISO 9001 compliance:

- **Approval Control:** Payments are initiated only after approval per the DoA matrix (Section 5.3). Emergency payments require a signed justification memo and joint approval by the HFP&A and CEO.
- **Initiation Control:** AP may initiate payments only when documentation is complete and validated. Required forms include the Payment Checklist (Annex A) and Disbursement Schedule (Annex B).

- **Exception Log:** Treasury updates the Exception Log (Annex C1) in real time for delays, rejections, or missing documents. The Head of Revenue & Treasury reviews it monthly and escalates unresolved issues to the HFP&A within 24 hours.
- **Access Control:** System access is restricted by role. Maker-checker segregation is enforced between AP and Treasury, with dual authorization for all disbursements.
- **Reconciliation:** Treasury reconciles executed payments with the approved schedule and submits reports for supervisory review.

8. ANNEXES

- **Annex A:** Payment Checklist
- **Annex B:** Disbursement Schedule Template
- **Annex C:** Central Payment Archive Register
- **Annex C1:** Payment Exception Log

INTEL HRC PAYROLL STANDARD OPERATING PROCEDURE

INTEL HRC PAYROLL STANDARD OPERATING PROCEDURE

Version: 1.0

Effective Date: [Insert Date]

Prepared by: [To be completed]

Approved by: [To be completed]

Process Owner: Head of HR & Treasury

1. Purpose

This Standard Operating Procedure (SOP) defines the end-to-end payroll management process at Intel HRC. It ensures accurate and timely compensation for both internal and outsourced personnel, while promoting compliance with national legislation, tax and social security regulations, and internal financial controls.

The SOP establishes a structured and auditable framework for payroll planning, data collection, system processing, approvals, payment execution, and post-payment documentation. It supports accountability, risk mitigation, and operational consistency across Intel HRC's payroll function.

2. Scope

This procedure applies to all payroll activities carried out by Intel HRC for its internal employees and externally assigned personnel placed with client organizations.

It covers the entire payroll lifecycle—from payroll planning and data input to system processing, payment execution, reporting, and archiving—regardless of the staff category or geographic location.

3. Reference Documents

This SOP is guided by applicable labour, tax, and social security regulations in Cameroon and in other jurisdictions where Intel HRC operates. It also draws on Intel HRC's internal payroll control procedures documented herein.

Specific templates, tools, and control forms supporting the procedure are provided in the annexes listed in Section 8.

4. Roles and Responsibilities

Role	Responsibilities
Client	▪ Submit Payroll changes ▪ Controls and approves payroll
CSE Manager	▪ Consolidation of payroll changes and generation of work-order ▪ Controls and approves the payrolls ▪ Provide billing instructions ▪ Prepare payment instruction ▪ Distribute payslips to outsourced employees and track their receipt. ▪ Issues (queries, complaints etc) resolution
Head of CSE	▪ Plan and supervise payroll cycle execution ▪ Review work order and payment instructions ▪ Issues (queries, complaints etc) resolution
Head of People & culture	▪ Prepare and run internal payroll. ▪ Review proposed salary structures for internal staff ▪ Submits approved payroll for payment ▪ Coordinate internal staff payslip distribution.
Revenue accountant	▪ Reconcile Payment Instructions to client billing ▪ Issue invoices
Head of Revenue & Treasury	▪ Reconcile payment instructions against final payroll. ▪ Payments issues resolution
Treasury accountant & Treasury Lead	▪ Confirm fund availability ▪ Insert approved payroll amounts into payment platforms. ▪ Execute GM-approved payments, ▪ Retain final proof of payment.
Head of Tax, Payroll & AP	▪ Review proposed salary structures for tax and statutory compliance. ▪ Controls & approves work-orders ▪ Reconcile payroll and work-order ▪ Lead DIPE submission and tax-related reporting ▪ Maintain payroll compliance records.
Payroll Specialist	▪ Input validated payroll data into SAGE ▪ Generate payroll reports, DIPE and payment order.
COO	▪ Reviews and approves Internal work-orders against clients' payroll changes ▪ Reconcile Internal work-order and the payment instruction

Managing Director (CEO)	▪ Verify governance compliance. ▪ Approve payroll payment instructions
----------------------------	---

5. Payroll Process

5.1 Payroll Scheduling

- The CSE Manager and Head of CSE establish the Payroll Planning Schedule (Annex A) no later than the 10th of each month.
- The Head of CSE communicates the approved Payroll Planning Schedule to all actors by email and ensures that a signed copy is retained in the monthly payroll packet.

5.2 Payroll Data Collection & Validation

- For client-deployed employees, the CSE Manager shares validated payroll inputs (Work-order)—such as new joiners, validated overtime, approved leave, terminations, and bonuses—to the Head of CSE. These inputs are reviewed by the CSE Manager for accuracy, consistency, and compliance before inclusion in Annex A1.
- For Intel HRC's internal staff, the Head of People & Culture collects payroll data from internal HR records and relevant forms.
- The COO validates all payroll data for completeness, consistency with contractual terms and clients requests, and alignment with the approved Payroll Planning Schedule.
- The salary structure must also be reviewed by the Head of Tax, Payroll & AP to ensure full compliance with applicable tax, CNPS, and DIPE reporting requirements.
- Any inconsistencies must be resolved or explained in the Payment instructions (Annex G).

5.3 System Input and Order Generation

- The CSE Managers transmits the validated Work-order to the Head of Tax, Payroll & AP who delegates it to the Payroll Specialist.
- Upon receipt of the validated Work-order, the Payroll Specialist runs the payroll into SAGE PAIE.
- Upon receipt of the payroll reports, the Head of Tax, Payroll & AP reviews it to ensure completeness, consistency with supporting documentation, and alignment with the approved work-order.
- Any discrepancies are returned either to the Head of CSE/ CSE Manager or the Payroll Specialist for correction, and the issue is logged in the Payroll Exception Log (Annex E) where applicable
- Payslips are digitally signed or otherwise formally validated by the Head of Tax, Payroll & AP as part of internal control.
- Payslips, payment orders, DIPE and payroll summary reports are extracted from SAGE by the Payroll Specialist and shared with the CSE/ CSE Manager, Tax Officer, Head of Tax, Payroll & AP and the Head of Financial Planning & Reporting.

5.4 Payroll Review & Reconciliation

- The CSE prepares the payment instructions and shares a signed copy to the Head of CSE.
- The Head of CSE reviews the Payment Instructions and payroll summaries to ensure it accurately reflects validated work-orders, aligns with contractual terms, and includes no unauthorized changes. Upon confirmation, the Head of CSE signs and dates the Payment Instruction as evidence of control review.
- Both the signed Payment Instruction and payroll summary report are transmitted to the COO for review and sign-off.
- Once approved, the COO shares the signed payment instructions and payroll summaries with the Head of Revenue & Treasury for reconciliation to client billing data.
- The signed Payment Instruction and payroll summaries are transmitted to the Treasury Accountant to initiate payment processing, in accordance with Section 5.6.
- The signed payroll summary is also transmitted to Accounting for booking of payroll-related journal entries and retained in the monthly payroll packet.
- Where the review by the Head of CSE, the Head of Revenue & Treasury or the COO identifies inconsistencies or unauthorized changes, the documents must be returned to the originating party for correction. All such cases must be logged in the Payroll Exception Log (Annex E), and material deviations escalated in accordance with Section 7.2.

5.5 Payment Processing

- The Head of Revenue & Treasury verifies that designated operations accounts hold sufficient balances to cover the approved payroll disbursements.
- Upon confirmation, the approved Payment Instruction is uploaded into the designated payment platforms (bank, cash, or mobile money).
- Verified payment instructions are then submitted to the CEO for final approval.

5.6 Final Approval & Execution

- The CEO reviews the payment instructions submitted by the Treasury Accountant, ensuring consistency with payroll authorization and verified fund availability.
- Upon confirmation, the CEO signs and approves the payments on the platforms
- Where the CEO identifies discrepancies and rejects the payment instructions, the documents must be returned to the Head of Revenue & Treasury for correction. The issue must be documented in the Payroll Exception Log (Annex E), and unresolved issues escalated in accordance with Section 7.2.
- The Treasury Accountant extracts proof of payments and shares with CSE Manager and Head of CSE.
- CSE Manager and Head of CSE transmit or confirm salary payment effectiveness to the Clients.

5.7 Post-Payment Documentation

- The Treasury Accountant reconciles the Proof of payment against the approved payment instructions.
- The verified proof of payment is transmitted to the Head of CSE for consolidation into the monthly payroll packet.

- The Head of People & Culture distributes payslips to internal Intel HRC staff and confirms receipt.
 - For client-deployed staff, the Payroll Specialist transmits the payslips to the CSE Manager, who distributes them to assigned employees and confirms acknowledgment.
 - Where the Treasury Accountant identifies inconsistencies between the proof of payment and approved instructions, he/ she must raise the non-conformity to investigate and correct the issue.
 - All such cases must be documented in the Payroll Exception Log (Annex E).
 - Material or unresolved discrepancies must be escalated in accordance with Section 7.2.
-

6. Compliance and Reporting

- The Head of Tax, Payroll & AP is responsible for preparing the monthly DIPE (Déclaration Individuelle des Prestations Employés) as the basis for payroll tax declarations. Only the consolidated annual DIPE is submitted to the tax administration in accordance with Cameroonian tax regulations.
 - DIPE preparation must be finalized no later than the 5th working day of the following month to ensure timely compliance.
 - The Head of Tax, Payroll & AP also oversees payroll-related compliance with applicable tax and social security legislation, including CNPS, Housing Fund, and other employer contribution obligations.
 - All compliance and reporting activities must be aligned with the internal payroll schedule and statutory deadlines. Supporting documentation must be retained in accordance with Intel HRC's payroll archiving standards.
-

7. Payroll Controls and Exception Handling

This section outlines the internal control documentation and exception escalation procedures that safeguard payroll integrity.

7.1 Documentation and Retention

- All payroll-related documents generated during the payroll cycle—including planning schedules, input templates, signed Payment Instructions, payroll summaries, payslips, checklists, and proof of payment—must be compiled each month into a complete payroll packet.
- The Head of People & Culture is responsible for ensuring documentation and retention for Intel HRC internal staff.
- CSE Managers/ Head of CSE are responsible for the same with respect to client-deployed staff.
- Treasury & Recovery must retain final proof of payment for all staff categories.
- Documentation must be archived both physically and digitally in accordance with Intel HRC's internal control framework and applicable laws.
- All payroll documentation must be retained for a minimum of ten (10) years.
- Monthly payroll documentation must be finalized and archived prior to initiation of the next payroll cycle.

7.2 Exception Logging and Escalation

Each control point must be supported by verifiable documentation such as signed checklists, annotated summaries, approval stamps, or system-generated logs.

- The Head of CSE maintains a complete log of payroll actions using the Monthly Payroll Checklist (Annex B).
 - Any identified discrepancies are recorded in the Payroll Exception Log (Annex E).
 - The Head of Financial Planning & Analysis and the CSE Manager are jointly responsible for investigating and resolving discrepancies prior to payment execution.
 - All discrepancies should be documented.
 - Where unresolved or involving legal or regulatory risk, the matter must be escalated to the CEO.
 - All escalations must be accompanied by documented timelines, root cause analysis, and proposed corrective actions.
-

8. Annexes

- **Annex A:** Payroll Planning Schedule
- **Annex A1:** Standardized Monthly Payroll Input Template
- **Annex B:** Monthly Payroll Checklist
- **Annex C:** Payslip Template
- **Annex D:** DIPE Format
- **Annex E:** Payroll Exception Log
- **Annex F:** Payroll Process Flowchart (ISO-Aligned)

PROCUREMENT MANUEL

INTEL HRC PROCUREMENT MANUAL

Version 1.0

1. Purpose

This manual provides a framework to ensure that the procurement of goods, services, and works is conducted in a manner that is transparent, efficient, ethical, and compliant with applicable laws, internal control requirements, and internationally recognized best practices.

2. Scope

This manual applies to all procurement activities across all Intel HRC departments, regardless of procurement value, urgency, or method.

3. Introduction

Procurement is a critical operational function that enables Intel HRC to acquire the goods, services, and works necessary to fulfill its objectives efficiently and responsibly.

This manual establishes standardized procedures to ensure that procurement activities are conducted with integrity, transparency, and fairness, and in a manner that promotes accountability, value for money, and compliance with applicable internal controls and external standards.

It also seeks to mitigate procurement-related risks by embedding clear responsibilities, approval thresholds, and documentation requirements throughout the procurement process.

4. Key Procurement Roles and Responsibilities

Role	Responsibility
Chief Executive Officer	- Provides final approval on high-value procurement. - Approves POs - Acts as fallback for finance oversight until CFO is recruited.
Head of Financial Planning & Analysis	Oversees procurement planning, confirms alignment with budget, and supports approvals.
Head of Tax, Payroll & AP	- Ensures vendors are tax compliant. - Oversees invoice validation. - Reviews and signs off "Suppliers' payment sheet"
Head of Departments	Validate and sign off procurement requests initiated by staff within their unit, ensuring operational relevance and alignment with approved work plans.

Country Representative/ Office Manager)	▪ Coordinates delivery, inspection, and document filing. ▪ Follow-up vendors complaints and payment ▪ Updates vendors statutory documents
Head of Quality Control & Central Services - [Name]	▪ Reviews technical specifications for centrally managed purchases (e.g., IT, facilities, equipment). ▪ Supports quality control during delivery inspection and participates in supplier evaluation for service quality. ▪ Leads operational procurement execution, handles vendor coordination, quotations, and invoice validation. ▪ Collects vendors statutory documents ▪ Follow-up vendors complaints and payment
Treasury Accountant	▪ Submit payments after verifying all validation/ internal control have been followed. ▪ Share proof of payments (POP)
AP Accountant	▪ Issues PO ▪ Verifies accuracy and validity of invoices ▪ Matching invoices, PO (when applicable) and good Delivery notes ▪ Reconciles vendors' statement with auxiliary ledger ▪ Books invoices into accounting system
COO	▪ Approves all Pos for operational expenses

Note: Other roles including CFO and Internal Audit will be integrated as the business scales.

5. Procurement Methods by Threshold

Value Range (FCFA)	Method	Approver(s)
< 100,000	Direct ((must be paid via bank transfer or other electronic payment method to ensure tax deductibility)	Head of Financial Planning & Analysis
>100,000 – 499,999	Quotations	Head of Financial Planning & Analysis
500,000 – 3,000,000	Quotations & POs	Head of Tax, Payroll & AP + Head of Financial Planning & Analysis
> 3,000,000	Quotations & POs	CEO

- Thresholds apply to the total contract value inclusive of all applicable taxes and charges
- In exceptional cases of operational urgency, the thresholds may be bypassed following justification and documentation as set out in Step 10.
- Refer to Annex D (Procurement Flowchart) and Annex E (Delegation of Authority Chart) for a visual summary of threshold-based approvals and role responsibilities.

6. Procurement Cycle

Note on Transmission of Documents:

Unless otherwise specified, all documents (e.g., requisitions, quotes, evaluations, GRNs, invoice files) must be transmitted via secure company channels – preferably a designated *shared procurement folder* or *official company email*. Manual (physical) handover must be logged and retained with the corresponding file.

Step 1: Requisition Initiation and Budget Validation

- The purchase requisition is Initiated by the requestor (staff member identifying the need) using the Purchase Requisition Form (*Annex A: Purchase Requisition Form*).
- It is reviewed and signed by the Head of Department to confirm operational relevance.
- The signed requisition is then forwarded to the Head of Quality Control & Central Services (HQC & CS) for quotation requests.

Step 2: Threshold-Based Approval

- Once the requisition has been reviewed for budget availability and correctly coded by the Head of Financial Planning and Analysis (HFP&A), it must be submitted for approval in accordance with the designated approval thresholds:
 - < 100,000 FCFA: HFP&A
 - >100,000 – 499,999 : HFP&A
 - 500,000 – 3,000,000 FCFA: Head of Tax, Payroll & AP and HFP&A
 - 3,000,000 FCFA: CEO

Step 3: Supplier Engagement

- Upon receipt of the approved Purchase Requisition, HQC & CS contacts vendors for quotations.
- Once collected, quotations are sent for independent confirmation of budget availability, account coding, and alignment with financial control procedures by HFP&A who sends the validated quote to the HQC & CS for processing.
- The Approved quote is sent to the AP Accountant for issuance of PO.
- Approved PO (by the COO) is sent to supplier HQC & CS to confirm the order.

3.1 Supplier Accreditation

- The HQC & CS maintains a central, regularly updated list of accredited suppliers (*Annex I: Preferred Supplier List Format*).
- Accreditation is granted upon successful onboarding and verification in accordance with *Annex H: Supplier Onboarding & Registration Checklist*.

- Suppliers must meet compliance requirements, including tax clearance, business licenses, and certifications as listed in *Annex F: Supplier Compliance Checklist*.
- Only accredited suppliers may be invited to quote, unless a written exception is justified and pre-approved by the Head of Financial Planning & Analysis for transactions up to 3,000,000 FCFA, or by the Chief Executive Officer for transactions exceeding 3,000,000 FCFA. All exceptional approvals must be documented in writing and retained in the procurement file.
- Accreditation is reviewed regularly to confirm continued compliance and suitability.

3.2 Sourcing and Quotations

- For purchases between 100,000 – 499,999 FCFA:
 - At least one written quote from an accredited supplier is required.
- If the requirement is covered by an existing preferred supplier or framework contract:
 - The HQC & CS confirms pricing and contract terms with the preferred supplier.
 - No additional quotations are required.
 - Supplier selection rationale must be documented in the procurement file.
- The HQC & CS is responsible for verifying that all quotations are properly filed.

3.3 Quote Evaluation and Supplier Selection

- For all purchases from 500,000 FCFA and above, bids must be evaluated using the Annex C: Bid Evaluation Matrix.
- Evaluation must be conducted by an Evaluation Committee composed of at least two members: the HQC & CS and a representative from the End User Department. For purchases above 3,000,000 FCFA, a third member from the Finance function (e.g., Head of Financial Planning & Analysis) must participate.
- Each Evaluation Committee member must confirm they have no conflict of interest related to the suppliers under evaluation. This confirmation may be documented either in writing or by recorded declaration on the Bid Evaluation Matrix.
- For service engagements, the Annex G: Vendor Performance Evaluation Form may also be used to assess prior supplier performance as part of the evaluation.
- Evaluation criteria must include at minimum:
 - Price
 - Technical and quality compliance
 - Delivery timelines
 - Past performance (where applicable)
- The Evaluation Committee must document the evaluation results, and the supplier selected, clearly stating the justification for the choice.
- The final evaluation results must accompany the procurement approval file submitted to the designated approver(s), who must cross-verify compliance before granting final approval.

Step 4: Approval

Once the evaluation is complete, the HQC & CS :

- Prepares the final bid evaluation file, ensuring all required annexes, evaluation matrix, conflict declarations (where applicable), and justification are complete.

- Channels the evaluation package and requisition to the designated approver(s) based on thresholds:
 - < 500,000 FCFA, the Business Unit Head's approval at the initiation stage constitutes final operational signoff. Where a requisition initially approved for less than 500,000 FCFA results in a selected vendor quotation that exceeds 500,000 FCFA, or where there is a material change in scope, Procurement must resubmit the decision for reconfirmation by the Business Unit Head and apply the appropriate approval threshold.
 - 500,000 – 3,000,000 FCFA: Head of Tax, Payroll & AP and Head of Financial Planning & Analysis
 - 3,000,000 FCFA: CEO and Head of Financial Planning & Analysis
- Approvers must verify that procurement procedures were followed as well as review and cross-check the bid evaluation scores and justification for supplier selection.
- Any approver who identifies concerns about evaluation integrity, supplier eligibility, or budget coverage must escalate the concern to the Head of Financial Planning & Analysis before proceeding.
- Approvals are documented either on the Annex C: *Bid Evaluation Matrix* or, for lower-value transactions, on the signed requisition form.
- Approval must be granted by an individual who was not involved in supplier evaluation, unless a co-signatory is added in accordance with Annex L
- Once all approvals are obtained, the HQC & CS proceeds to legal checks or direct contract/Purchase Order preparation as applicable.
- Approval authority assigned under this procurement policy is personal to the designated approver and may not be delegated or transferred to another staff member. Exceptions may only be granted in writing by the Chief Executive Officer (CEO), with a formal record maintained in the procurement file. Informal sub-delegation is strictly prohibited.

Step 5: Legal and Contractual Review (if applicable)

- Legal Counsel must review contract terms and conditions for all procurement engagements.
- This review focuses solely on the legal sufficiency of the contract and related documents. Supplier eligibility and compliance are separately verified during Supplier Accreditation (Step 2).
- Legal clearance must be evidenced by completion of *Annex R-Contract Review Clearance Form*. This documentation must be retained in the procurement file.
- All contracts must be submitted for legal review and ensure clearance is obtained within **2 to 3 working days**.
- The approved file is transferred to the AP Accountant to proceed with the purchase order while a copy is uploaded into SharePoint.

Step 6: Purchase Order or Contract Preparation and Approval

Step 6.1: Purchase Order or Contract Preparation

- The AP Accountant prepares the Purchase Order (PO) using the approved Annex L: Purchase Order Template or legally reviewed contract terms.
- Purchase Orders must be sequentially numbered for traceability.

Step 6.2: Purchase Order or Contract Approval

- PO or contract approval constitutes the final commercial authorization before supplier engagement and must be documented on Annex L
- A contract may be used instead of a PO where the procurement is high value, includes recurring deliverables, contains non-standard terms, or presents material legal or performance risks
- The completed PO or contract is reviewed and signed by the designated approver(s), based on value thresholds:
 - 100,000 – 499,999 FCFA: HFP& A
 - 500,000 – 3,000,000 FCFA: Head of Tax, Payroll & AP and HFP& A
 - 3,000,000 FCFA: CEO
- After internal approval and signature by Intel HRC:
 - For POs up to 3,000,000 FCFA: the PO is dispatched to the supplier. Supplier acceptance is evidenced by order confirmation or commencement of delivery/performance.
 - For POs exceeding 3,000,000 FCFA or involving significant contractual obligations: supplier countersignature must be obtained prior to delivery or service commencement.
- A fully executed copy (either supplier-countersigned or accepted through performance) must be archived by the AP Accountant.
- No delivery of goods or commencement of services should take place unless a duly authorized Purchase Order or contract, incorporating Intel HRC's Terms and Conditions, has been issued and communicated to the supplier, except in exceptional cases approved in writing by the CEO.
- Where a contract is used, it must undergo legal review as outlined in Step 5 before approval.

Step 6.3 – Contract Tracking and Renewals

- All signed contracts shall be recorded in the **Contract Tracker (Annex J)** to ensure timely follow-up on key dates, renewal requirements, and performance obligations.
- The **HQC & CS** shall oversee the Contract Tracker for all procurement-related contracts and ensure that updates are made promptly upon contract signature or renewal.
- The Contract Tracker shall be reviewed at least **once per quarter** to anticipate contract expiry, trigger renewal actions, and monitor supplier performance against contractual terms.

Step 7: Delivery and Inspection

- The **HQC & CS** coordinates delivery logistics and verifies physical receipt of goods or services.
- A Delivery note must be completed within 24 hours of receipt and must be signed by both the **HQC & CS**.
- The Delivery note serves as mandatory supporting documentation for invoice validation and must be archived with the procurement file. No invoice may be approved for payment unless supported by a valid Delivery note.
- **HQC & CS** is responsible for confirming that goods or services meet technical and operational specifications through their co-signature on the Delivery note. For any IT material delivery, the IT Officer pre-confirmation is mandatory.

- If any discrepancies, damages, or non-conformities are identified during inspection:
 - A Non-Conformity Report must be completed by **HQC & CS** .
 - The supplier must be formally notified in writing and corrective actions agreed.
 - Payment must be suspended until the non-conformity is resolved to the company's satisfaction.
- Fully accepted deliveries proceed to Step 8: Invoice Submission and Validation.

Step 8: Invoice Submission and Validation

- The supplier submits the original invoice to the **HQC & CS** .
- The **HQC & CS** retrieves and attaches the signed Delivery note, the approved Purchase Order and the invoice to complete the payment file.
- The complete payment file is then submitted to the Head of Payroll, tax & AP for validation and booking.
- Validation must ensure:
 - Consistency in the three-way match between the Purchase Order/Contract, the delivery note, and the Supplier Invoice.
 - Supplier details (NIU, legal name) match accreditation records.
- The complete payment file is then submitted to the Head of Financial Planning & Analysis for control.
- Any inconsistencies must be flagged immediately, and payment processing suspended until they are resolved.
- Once validated, the forwards the approved payment file to Treasury for payment.
- This step must be performed in accordance with the company's approved Accounts Payable procedures and controls.
- After payment, the complete validated invoice file must be archived securely with the corresponding procurement documentation and retained in accordance with the company's records management policy.

Step 9: Archiving

- For purposes of procurement record access and management, **Authorized Finance or Audit Personnel** shall mean the following roles:
 - **HQC & CS**
 - Head of Financial Planning & Analysis
 - Internal Auditor (upon constitution)
 - Any other individual formally granted access by written authorization from the Chief Executive Officer (CEO) or Chief Financial Officer (CFO).
- The AP Accountant is responsible for maintaining a secure digital and physical archive of all procurement records, including requisitions, quotations, approvals, Delivery notes, GRNs, and invoice files.
- However, to preserve segregation of duties and financial integrity, original invoices, payment vouchers, and treasury-related documentation shall be archived and retained in line archiving provisions in the accounts payable and treasury procedures manual.
- All procurement records must be saved in the designated procurement digital archive and organized by year, supplier, and transaction reference for easy retrieval.
- The IT Department is responsible for ensuring that the digital archive is backed up regularly in accordance with the company's IT and records management policy.

- Digital files must be protected by appropriate security measures, including encryption, restricted access settings, and regular backup protocols.
- The Head of Financial Planning & Analysis oversees the completeness and compliance of procurement archiving and coordinates with IT for backup verification.
- The HFP&A shall confirm at least once per year that backup protocols are functioning as intended and that procurement archives are restorable
- Physical copies, where required, must be stored in a locked cabinet accessible only to Authorized Finance or Audit Personnel.
- Records must be retained for a minimum of ten (10) years in accordance with the company's records retention policy.
- Access to archived procurement documents must be strictly traceable and limited to Authorized Finance or Audit Personnel.
- All access requests must be made through official channels and recorded in the Procurement Archive Access Log on sharepoint (Annex N).
- The HQC & CS and Operation Coordinator must conduct a quarterly review of the procurement archive to verify the completeness of records, compliance with retention rules, and integrity of access logs.
- Extraordinary access to procurement archives (e.g., investigations, regulatory inquiries) must be pre-approved in writing by the CEO or CFO.

10. Special Procurement Conditions

Single Source Procurement may only be applied under clearly justified circumstances, including:

- Lack of viable competition in the market
- Compatibility with existing infrastructure, systems, or prior procurements
- Urgent operational or emergency needs requiring immediate procurement
- Failure of prior competitive processes despite due effort

In all cases:

- A written justification must be prepared by the Head of Department using the internal Single Source Justification Memo format (Annex k)
- The justification must specifically address:
 - Reason for single source selection
 - Financial and compliance risks identified, along with proposed mitigation measures
 - Confirmation that the selected supplier remains legally and fiscally compliant
- All single-source justifications must be reviewed and approved in writing by the Head of Financial Planning & Analysis.
- No engagement with the proposed supplier may take place until the justification is fully approved in writing
- The complete signed justification must be filed in the procurement file and retained for audit review, in accordance with archiving standards in Step 8.
- Use of Single Source Procurement remains an exception and must be limited to cases where competitive procurement is clearly impractical or not in the company's best interests.

- The HQC & CS shall maintain a record of all single source procurements for periodic management review.

11. Ethical Standards

- All procurement activities must be conducted with the highest ethical standards and in strict compliance with applicable laws, regulations, and internal company policies.
- Conflicts of interest must be strictly avoided. Any staff member involved in procurement who has a personal or financial interest in a supplier must immediately disclose it by completing the Conflict of Interest & Gift Declaration (Annex O) and submitting it to the Head of Financial Planning & Analysis within 48 hours of becoming aware of the conflict.
- Gifts, hospitality, or other advantages offered by suppliers must not be accepted if they could influence or appear to influence procurement decisions in alignment with the Anti-bribery and corruption policy.
- Intel HRC maintains an anonymous whistleblowing channel to allow staff and stakeholders to report suspected ethical breaches, conflicts of interest, procurement irregularities, or other concerns.
- Anonymous reports may be submitted via the confidential email address [e.g., ethics@intelhrc.org] or through a secure physical dropbox in the Office Manager's custody.
- Anonymous reports will be treated with the same seriousness as identified reports, and investigations will be conducted fairly and confidentially.
- Regardless of whether a report is made anonymously or with identification, all good faith reporters will be protected from retaliation or disciplinary action.
- The existence and use of the anonymous whistleblowing channel shall be regularly communicated to all staff involved in procurement activities.
- Periodic training sessions or internal communications will remind staff about how to report concerns, protections available to whistleblowers, and the importance of maintaining ethical standards.
- Records of such communication and training shall be maintained by the the Head of Financial Planning & Analysis.
- Breaches of ethical standards, suspected conflicts of interest, or questionable supplier behavior must be reported promptly to the CEO, the Head of Financial Planning & Analysis, or the Internal Auditor (when constituted).
- Failure to comply with these ethical standards may result in disciplinary measures, up to and including termination of employment, and may also expose the staff member to legal consequences.

12. Documentation and Records

- Procurement documentation and records must be maintained in an organized, secure, and retrievable manner to demonstrate compliance with procurement procedures and to support internal and external audit reviews.
- The procurement file for each transaction must include, at a minimum:
- **Pre-award documentation:**
 - Requisition forms (Annex A)

- Conflict of Interest Declarations where applicable (Annex O)
- Approvals obtained at relevant authorization levels
- **Contracting and delivery documentation:**
 - Purchase Orders (Annex L) or signed Contracts
 - Delivery notes (Annex M)
 - Supplier invoices
 - Single Source Justifications (if applicable)
- **Post-delivery documentation:**
 - Payment validation documentation
 - Breach Reporting Forms (e.g., the Whistleblowing and Incident Reporting Form – Annex P, where applicable)
 - Any other relevant correspondence or documentation
- Procurement records may be maintained either in physical or electronic form, provided that:
 - Electronic records are protected by appropriate backup, encryption, and restricted access controls, in accordance with the company's IT and records management policy.
 - Physical records are stored securely in locked facilities accessible only to Authorized Finance or Audit Personnel.
- The AP Accountant, under the supervision of the Head of Financial Planning & Analysis, is responsible for ensuring the completeness of the procurement file for each transaction before final archiving.
- Procurement documents must be retained for a minimum period of ten (10) years from the date of the transaction, in accordance with the company's archiving standards outlined in Step 8.
- All records must be readily accessible for audit or regulatory inspection upon request.

13. Annexes

- Supporting annexes form an integral part of this Procurement Manual. The templates, forms, and tools listed below are mandatory for procurement transactions unless explicitly exempted in writing by the Head of Financial Planning & Analysis.
- The current list of Annexes includes:
 - **Annex A:** Purchase Requisition Form
 - **Annex B:** Supplier Quotation Template
 - **Annex C:** Bid Evaluation Matrix
 - **Annex D:** Procurement Process Flowchart
 - **Annex E:** Delegation of Authority Chart
 - **Annex F:** Supplier Compliance Checklist
 - **Annex G:** Vendor Performance Evaluation Form
 - **Annex H:** Supplier Onboarding & Registration Checklist
 - **Annex I:** Preferred Supplier List Format
 - **Annex J:** Contract Management & Renewal Tracker
 - **Annex K:** Single Source Justification Template
 - **Annex L:** Purchase Order Template
 - **Annex M:** Delivery note Template

- **Annex N:** Archive Access Log Template
 - **Annex O:** Conflict of Interest & Gift Declaration
 - **Annex P:** Whistleblowing Incident Reporting Form
 - **Annex Q:** Procurement Manual Change Log Template
 - **Annex R:** Contract Review Clearance template
-
- Updates to annexes must be formally approved by the Head of Financial Planning & Analysis and recorded in the Procurement Manual Change Log (Annex S).
 - All updated annexes must be distributed to relevant personnel and implemented operationally.
